

THE CONGESTED M50

ARE YOU SICK OF THE M50 BEING SO
CONGESTED?

At the moment, the M50 is extremely congested through the fact that too many people rely on it to get to school or work. You might not be able to get on. This, and the number of people getting on and off at is stuff, is causing you, or others to become late to work and school. This can be solved through many ways - by spreading out the students from Sydney High School to other buses, or by creating earlier running and more frequent running buses.

With a simple sign of an online petition, you can help solve this issue. For more information and the petition, please visit our website: <https://sbhsbusissue.weebly.com/>
